

Thank you for purchasing the ND Horizon Business Systems Audit. Answer the 16 questions below and reply by email. Short, honest answers work best; bullet points are fine. This usually takes about 20 minutes. After your answers arrive we inspect your website, search visibility, reviews, and competitors, and (with your consent below) run a response-time test. Your written audit arrives within 3 business days, followed by your 30-minute findings call.

1. Business name

The legal or operating name you go by.

2. Industry

For example: home services, healthcare, transportation, professional services.

3. Website

Full address. If you do not have one, write "none".

4. Location

City and state, plus the area you serve.

5. Main services offered

List your services. Note which one earns the most.

6. Average job or ticket value

Your best estimate of what a typical sale is worth. We use this to price your leaks.

7. Your three nearest competitors

Names or websites. We benchmark your visibility and reviews against theirs.

8. Target customer

Who is your ideal client? Be as specific as you can.

9. Current lead sources

Where do new customers come from today? Referrals, Google, social, ads, walk-ins.

10. How customers contact the business

Phone, text, email, website form, DMS. All that apply.

11. Current follow-up process

What happens after someone inquires? Who responds, how fast, and is there a second touch?

12. Biggest business problem right now

In your own words. The thing that keeps coming up.

13. Current tools being used

CRM, scheduling, invoicing, email, spreadsheets, anything else.

14. Team size

How many people, including you, and who does what.

15. Main growth goal for the next 90 days

Revenue target, client count, new service, or anything concrete.

16. Known issues with missed leads, operations, marketing, or retention

Anything you already suspect is broken. If unsure, write "not sure".

Response-time test consent

As part of the audit we can contact your business once, posing as a normal customer inquiry, and measure how fast and how well it gets answered. The result appears in your report with timestamps. It is usually the single most useful finding.

■ **Yes**, you have my permission for one test inquiry. ■ **No**, skip the response-time test.

Reply with your answers to **lynold@ndhorizon.com**. Questions while you fill this out? Just ask in the same thread.
