

Business Systems Audit

We inspect. We test. You get the plan. \$499 flat.

Most business advice is opinion. This is an inspection. We examine your business from the outside the way a customer experiences it, test how fast your business answers a real inquiry, benchmark you against your three nearest competitors, and hand you a scored, prioritized plan. Then we walk you through it live.

What we do

- Outside-in inspection: your website, Google visibility, Business Profile, and reviews
- Competitor benchmark: how you stack up against the three businesses you actually lose work to
- Response-time test: a mystery inquiry through your own contact channel, with a stopwatch (with your consent)
- Priority scorecard: eight areas scored 1 to 5, every leak priced with your own average job value
- Quick wins and a week-by-week 30-day action plan
- 30-minute findings call: we walk through the report together and agree what happens first
